Re: GOP/Republicoln/Republincoln

The Time Has come. The Republican Party, revered for decades, is no more. MAGA will never relinquish its control, regardless of the 2024 election. Former and disaffected Republicans must create a new identity deeply rooted in the storied principles espoused by Abraham Lincoln. The opportunity to do so is herein presented.

The following are domain names and image trademarks I have created and own. I am pleased to say that they are out of the reach of MAGA supplicants and their ilk. We must have a vibrant and well-rooted two-party system that genuinely believes in the Constitution and our Democracy. I am making all the following available as a bundle, complete with copyrights and trademarks.
